

# Oki's Secret Code

Kendra Kandlestar has received a message from her friend Oki. There's just one problem: It's a cryptogram, meaning that it's written in an unknown language! Can you help her solve this puzzle? She has already decoded some of the letters, but it's up to you to take her hard work and decode the rest.

## HINT:

Begin by taking the letters Kendra has already decoded and match them to the appropriate symbols in the puzzle. Then try to identify the most common letters — the vowels, beginning with "a." Then think of the letters "r," "n," and "l," and "h."

KENDRA, HERE'S SOME

ADVICE: IF YOU FIND

YOURSELF FEELING

FRIGHTENED THEN JUST

TRY NOT TO

THINK OF ONIONS
